1. All **actions** have **consequences** and considering these can affect how we choose to act.

2. Hindus believe that people build up **Karma**, both positive and negative, based on their actions within that lifetime.

Do beliefs in Karma, Samsara and Moksha help Hindus lead good lives?

3. Hindus believe that the soul passes through a cycle of **successive** lives and its next **incarnation** depends on how the previous life was lived. Hindus aim to live each life in a better way than the life before. They believe in **reincarnation (Samsara)**.

4. The spiritual goal of a Hindu is to become one with **Brahman**. This freedom is called **Moksha** and until this is achieved, Hindus believe that they will continue to be repeatedly reincarnated.

5. Everyone will have their own views on what happens when the physical body dies. This can be expressed through artwork and poems.
